Planning

The Mission Prelims at EDEN IAS cover the entire syllabus with a major focus on the most important areas based on trend analysis, within a span of 90 days. The idea of the course revolves around 3 Ds - DEDICATION - DETERMINATION - DESTINY and we give our best to command all the 3 Ds. Learn concepts, improve question-solving techniques through time management and practice.

"Make time for Planning: Wars are won in the General's tent."

Performance

Hence your performance would come out as a result of your commitment to excellence, intelligent planning, and focused effort.

Mission Prelims 2022

A Revision cum Practice Crash Course

Revision

We all know, the entire preparations can be taken to exam hall only through a great revision. There is a huge syllabus along with a hefty amount of current affairs to revise for Prelims. We believe in smart revision techniques and cover the entire syllabus by doing trend analysis.

"Every success story is a tale of constant revision."

PREP

Execution

We not only help you revise, but we emphasize the application of the concepts. A regular MCQ practice is synchronized with the daily revision classes.

The daily-based preparation syllabus is covered in a systematic manner through daily practice and improvement tests and Mock Tests by the end of the course.

"Genius is when an idea and the execution of that idea are simultaneous."

Why Mission Prelims?

Dear Aspirants,

As we all know that the Mission prelims have always been one of the most promising courses for UPSC Prelims revision and practice.

We also want you to pin your hopes on this batch and together we can produce the best results in upcoming Prelims 2022. This year, after analyzing the trend of the examination and needs of our students, we have designed the course in a targeted manner. We are focusing majorly on application-based preparation. The classes and tests are going to be more interactive than we can bring the best out of you to handle the Prelims exam day situation.

So, let's make a powerful beginning and strategize our syllabus revision in the best possible manner so that you can feel 100% confident before the examination day.

Because your best version is yet to come!

About the Course

Revision Classes

(50 Classes-2 to 2.5 Hrs. each)

These classes cover the UPSC Syllabus in a gradual fashion on a daily basis class with sectional tests.

Marathon Classes

(32 Classes-16 Days; 2 to 2.5 Hrs. each)

The Marathon Classes are the sessions to cover the most relevant areas of the subject through the well-analyzed booklets provided under this course.

Special Classes

(06 Classes- 6 Hrs.)

These classes are going to cover Union Budget - Survey and Mapping Classes for India and World.

Current Affairs Classes

(24 Classes- 24 Hrs.)

We are going to cover 1-year of current affairs through News Papers, Magazines, PIB, Sansad TV, etc.

CSAT Classes

(30 Classes-. 30 Hrs.)

Classes and practice under this module.

Tests

(50 Sectional + 08 Mock Tests)

Daily practice tests and Mocks.

Study Material.

Mentorship.

The Core Idea

Mission Prelims is an ideal course for almost all the UPSC aspirants - First timers, those who are scared of prelims due to previous unsuccessful attempts, or even those who have cracked prelims but couldn't make it to Mains or Interview and again attempting the Prelims.

As per the general standards of serious and dedicated UPSC preparation, you prepare throughout the year and even then you don't feel confident about a few subjects - The reason is lack of application in that particular subject.

The daily schedule under this course would not only help you to cover the syllabus but also will make you apply those concepts on the same day.

Daily Step IV- Current Affairs (1 hr./Day)

We are covering the current affairs of 1 year through 365 questions and study material. The motto of the question-based class is to make things easy for the memory. It becomes easy to keep an issue for a long time after applying it as a scenario and discussing various related dimensions. Daily an hr of current affairs class is a sustainable idea.

Daily Step V - CSAT Classes (1 Hr./Day)

CSAT is all about practicing, daily an hour of practice cum discussion can make you confident in CSAT and can help you improve your speed.

EDEN IAS

The Course Schedule

Daily Step I - Check your preparation | Mark your territory - Strength and weaknesses.

You have 5 months for the Prelims 2022 and you have already devoted a lot before it, This test is to check your strength or weakness before sitting in the revision class. It will also help you to enrich your thought process while attempting an MCQ and help you to connect the dots of the concept part with the application part. The daily preparatory syllabus is mentioned in the schedule for the first 25 MCQ tests.

Daily Step II - Revision Class on the syllabus through the Question - Concept discussion.

Do not confuse these 2.5 hrs. classes with random test discussion classes - The idea of taking the class is by using the questions as props to connect the concepts to their application. This can be considered reverse engineering because most of the aspirants even after having a good concept base fail to get the best of their potential in the exam.

Daily Step III- Check your Improvement | After class test

You will get again a set of 25 MCQ after the revision class, on the same syllabus taught in the class on the same day to check your improvement. If you can't apply on the same day, it is time to talk to the mentor.

Marathon Session - A double check to the entire syllabus | Nail the study material.

Leave no stones unturned! These classes are to help you cover the most concise study material created by Team EDEN IAS, we have covered almost everything to be covered under the sun for a particular subject. It can be taken as a revision to the revision classes. (4 Sessions per subject after covering allocated revision classes)

Special Sections

Some special sessions are allocated to the areas like Union Budget - Economic survey, Map Marking classes to score with an extra edge.

Give a final touch through Mock Tests, study material and mentorship.
