Marks - 362 HIGHEST SCORE EVER

Test series are most important in providing sufficient exposure to crack the civil service. I am glad that I made the right choice by joining L2A.

Besta Sir's inputs at the right time helped me to write better answers and crack the civil service with my first attempt in Anthropology.

Thank you Sir

Before joining L2A
CSE-2016 Marks 293

RANK 07
AYUSH SINHA

After joining L2A
CSE-2017 Marks 350

I joined L2A test series in 2017 in an attempt to improve my marks in Anthropology. Under the mentorship of Sir, I was able to score 350 marks in Anthropology and secure AIR 7 in CSE-2017. Sir provided valuable feedback which helped me improve answer-writing. The 'special classes' & discussion also helped to enrich my answers with important value additions, including case studies. A heartfelt thank to Besta Sir & L2A whose sincerity has made a great difference to my score in Anthropology and Rank in Civil Services Examination.

CSE-2015 →

Call: 9821805141, 9868560857

I joined L2A 'Anthropology mains test series' in 2019. Bala Sir's insightful suggestions and meticulous analysis of my answers helped me enrich, innovate and structure my answers well. I secured AIR 261 with 283 marks in my optional. I am very grateful to Bala sir and the entire L2A team for helping me in this journey.

- Preeti Kumari
AIR 261

I joined L2A Anthropology test series in January 2019. Overall I had attempted 7 tests before CSE Mains and it helped me to improve my answers and provided the right simulation for the real exam. Also it helped me to fill the gaps in my preparation and gauge my performance. Some questions were asked directly from the test series.

I am grateful to Bala Sir for his support and guidance.

Thank you Sir and the entire L2A team !!

Regards,

Shubham Kumar

Rank 290, CSE 2019

I joined Anthropology test series
CSE-2019. It helped me to improve my
answer writing skills. The quality of test papers
were upto the mark. precise suggestions by
Bala sir helped me to improve my answer quality

Thank you bala sir and entire
staff of L2A.

Regards,
C. Siva Gopal Reddy
AIR 263, CSE-2019.

 26/10/2020

I would like to place my gratitude to Bala sir and the entire L2A staff. My success in the exam would not have been possible without L2A's help. I gained several important inputs from their anthropology test series, helping me to raise the quality of my content significantly. Bala sir was always very kind in entertaining my doubts, and suggesting me areas of improvement. His belief in me generated a lot of confidence in my abilities, ultimately giving me an excellent score in the optional subject.

Thank you sir and the entire team.

Yours Truly
Akshat
(Akshat Jain)
AIR-2
UPSC CSE 2018

I joined L2A Anthropology Test Series CSE-2018 to practice answer writing and gauge my performance. In the limited number of tests I could attempt, I gained improvement points which became instrumental in my performance. Topper strategies and Topper copies from L2A website helped a lot.

I would like to extend my kind regards to Bala Sir and L2A team for helping me practice, reflect and improve in Anthropology

Thank You,
Shreyans Kumrat

Syllabus

ANTHROPOLOGY

PAPER – I

- 1.1 Meaning, scope and development of Anthropology.
- 1.2 Relationships with other disciplines: Social Sciences, Behavioural Sciences, Life Sciences, Medical Sciences, Earth Sciences and Humanities.
- 1.3 Main branches of Anthropology, their scope and relevance:
 - (a) Social- cultural Anthropology.
 - (b) Biological Anthropology.
 - (c) Archaeological Anthropology.
 - (d) Linguistic Anthropology.
- 1.4 Human Evolution and emergence of Man:
 - (a) Biological and Cultural factors in human evolution.
 - (b) Theories of Organic Evolution (Pre- Darwinian, Darwinian and Post- Darwinian).
 - (c) Synthetic theory of evolution; Brief outline of terms and concepts of evolutionary biology (Doll's rule, Cope's rule, Gause's rule, parallelism, convergence, adaptive radiation, and mosaic evolution).

- 1.5** Characteristics of Primates; Evolutionary Trend and Primate Taxonomy; Primate Adaptations; (Arboreal and Terrestrial) Primate Taxonomy; Primate Behaviour; Tertiary and Quaternary fossil primates; Living Major Primates; Comparative Anatomy of Man and Apes; Skeletal changes due to erect posture and its implications.
- 1.6** Phylogenetic status, characteristics and geographical distribution of the following:
- (a) Plio-pleistocene hominids in South and East Africa - Australopithecines.
 - (b) Homo erectus: Africa (Paranthropus), Europe (Homo erectus heidelbergensis), Asia Homo erectus javanicus, Homo erectus pekinensis).
 - (c) Neanderthal Man- La-Chapelle-auxsaints (Classical type), Mt. Carmel (Progressive type).
 - (d) Rhodesian man.
 - (e) Homo sapiens — Cromagnon, Grimaldi and Chancelade.
- 1.7** The biological basis of life: The Cell, DNA structure and replication, Protein Synthesis, Gene, Mutation, Chromosomes, and Cell Division.
- 1.8 (a)** Principles of Prehistoric Archaeology. Chronology: Relative and Absolute Dating methods.
- (b)** Cultural Evolution- Broad Outlines of Prehistoric cultures:
- (i) Paleolithic
 - (ii) Mesolithic
 - (iii) Neolithic
 - (iv) Chalcolithic
 - (v) Copper-Bronze Age
 - (vi) Iron Age

- 2.1 The Nature of Culture: The concept and characteristics of culture and civilization; Ethnocentrism vis-à-vis cultural Relativism.
- 2.2 The Nature of Society: Concept of Society; Society and Culture; Social Institutions; Social groups; and Social stratification.
- 2.3 Marriage: Definition and universality; Laws of marriage (endogamy, exogamy, hypergamy, hypogamy, incest taboo); Types of marriage (monogamy, polygamy, polyandry, group marriage). Functions of marriage; Marriage regulations (preferential, prescriptive and proscriptive); Marriage payments (bride wealth and dowry).
- 2.4 Family: Definition and universality; Family, household and domestic groups; functions of family; Types of family (from the perspectives of structure, blood relation, marriage, residence and succession); Impact of urbanization, industrialization and feminist movements on family.
- 2.5 Kinship: Consanguinity and Affinity; Principles and types of descent (Unilineal, Double, Bilateral, Ambilineal); Forms of descent groups (lineage, clan, phratry, moiety and kindred); Kinship terminology (descriptive and classificatory); Descent, Filiation and Complimentary Filiation; Descent and Alliance.
3. Economic organization: Meaning, scope and relevance of economic anthropology; Formalist and Substantivist debate; Principles governing production, distribution and exchange (reciprocity, redistribution and market), in communities, subsisting on hunting and gathering, fishing, swiddening, pastoralism, horticulture, and agriculture; globalization and indigenous economic systems.

4. Political organization and Social Control: Band, tribe, chiefdom, kingdom and state; concepts of power, authority and legitimacy; social control, law and justice in simple societies.
5. Religion: Anthropological approaches to the study of religion (evolutionary, psychological and functional); monotheism and polytheism; sacred and profane; myths and rituals; forms of religion in tribal and peasant societies (animism, animatism, fetishism, naturism and totemism); religion, magic and science distinguished; magico-religious functionaries (priest, shaman, medicine man, sorcerer and witch).
6. Anthropological theories:
 - (a) Classical evolutionism (Tylor, Morgan and Frazer)
 - (b) Historical particularism (Boas); Diffusionism (British, German and American)
 - (c) Functionalism (Malinowski); Structural- functionalism (Radcliffe- Brown)
 - (d) Structuralism (L'evi - Strauss and E. Leach)
 - (e) Culture and personality (Benedict, Mead, Linton, Kardiner and Cora – du Bois).
 - (f) Neo - evolutionism (Childe, White, Steward, Sahlins and Service)
 - (g) Cultural materialism (Harris)
 - (h) Symbolic and interpretive theories (Turner, Schneider and Geertz)
 - (i) Cognitive theories (Tyler, Conklin)
 - (j) Post- modernism in anthropology
7. Culture, language and communication: Nature, origin and characteristics of language; verbal and non-verbal communication; social context of language use.

8. Research methods in anthropology:
- (a) Fieldwork tradition in anthropology
 - (b) Distinction between technique, method and methodology
 - (c) Tools of data collection: observation, interview, schedules, questionnaire, Case study, genealogy, life-history, oral history, secondary sources of information, participatory methods.
 - (d) Analysis, interpretation and presentation of data.
- 9.1 Human Genetics: Methods and Application: Methods for study of genetic principles in man- family study (pedigree analysis, twin study, foster child, co-twin method, cytogenetic method, chromosomal and karyo-type analysis), biochemical methods, immunological methods, D.N.A. technology and recombinant technologies.
- 9.2 Mendelian genetics in man-family study, single factor, multifactor, lethal, sub-lethal and polygenic inheritance in man.
- 9.3 Concept of genetic polymorphism and selection, Mendelian population, Hardy- Weinberg law; causes and changes which bring down frequency – mutation, isolation, migration, selection, inbreeding and genetic drift. Consanguineous and non-consanguineous mating, genetic load, genetic effect of consanguineous and cousin marriages.

- 9.4** Chromosomes and chromosomal aberrations in man, methodology.
- (a) Numerical and structural aberrations (disorders).
 - (b) Sex chromosomal aberrations – Klinefelter (XXY), Turner (XO), Super female (XXX), intersex and other syndromic disorders.
 - (c) Autosomal aberrations – Down syndrome, Patau, Edward and Cri-duchat syndromes.
 - (d) Genetic imprints in human disease, genetic screening, genetic counseling, human DNA profiling, gene mapping and genome study.
- 9.5** Race and racism, biological basis of morphological variation of non-metric and metric characters. Racial criteria, racial traits in relation to heredity and environment; biological basis of racial classification, racial differentiation and race crossing in man.
- 9.6** Age, sex and population variation as genetic marker- ABO, Rh blood groups, HLA Hp, transferrin, Gm, blood enzymes. Physiological characteristics- Hb level, body fat, pulse rate, respiratory functions and sensory perceptions in different cultural and socio-economic groups.
- 9.7** Concepts and methods of Ecological Anthropology. Bio-cultural Adaptations – Genetic and Non- genetic factors. Man’s physiological responses to environmental stresses: hot desert, cold, high altitude climate.
- 9.8** Epidemiological Anthropology: Health and disease. Infectious and non-infectious diseases. Nutritional deficiency related diseases.

- 10.** Concept of human growth and development: stages of growth - pre-natal, natal, infant, childhood, adolescence, maturity, senescence.
- Factors affecting growth and development genetic, environmental, biochemical, nutritional, cultural and socio-economic.
 - Ageing and senescence. Theories and observations - biological and chronological longevity. Human physique and somatotypes. Methodologies for growth studies.
- 11.1** Relevance of menarche, menopause and other bioevents to fertility.
Fertility patterns and differentials.
